Summary

This document reports the Study Visit and analysis best practices in EU countries- Bulgaria of the Erasmus+ Capacity Building in the Field of Higher Education project “Soil Erosion and Torrential Flood Prevention: Curriculum Development at the Universities of Western Balkan Countries” (SETOF) held in Sofia, Bulgaria on the 12th of May 2022

The Study Visit commenced at 9:00 on 12th May when the participants visited the University of forestry – Sofia. The study visit starts with a welcome word from the dean of the faculty of Forestry and with two presentations about forestry education in Bulgaria and erosion controlled activities. Then participants were enabled to visit laboratories and the information center of the University.

After the arboretum tour, participants headed to Forest Research Institute, where they were welcomed from Corr. Memb. Of BAS DSc Georgi Georgiev the Director of the Institute. He introduced them to the history of the institute and important moments in the development of forestry science. After that two other presentation for Ecosystem Services and for Biological stations were presented. The Study Visit was closed at 18:00

Conclusions

Conclusion is that the Study Visit and analysis best practices in EU countries – Bulgaria on the SETOF project was successfully realized.
