# FACULTY OF FORESTRY

the only scientific-  
educative institution  
for forestry in  
the country

**Soil Erosion and TOrrential Flood**  
*Prevention: Curriculum Development at the*  
*Universities of Western Balkan Countries*

# History

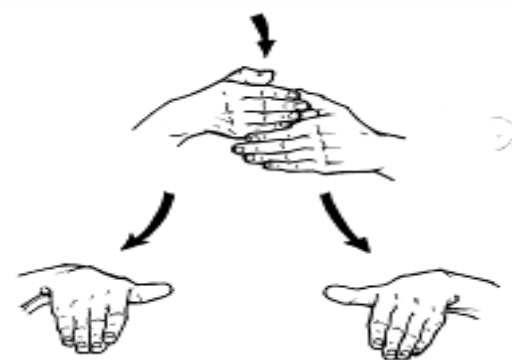

- **Institute of Forestry** was established in 1944
- **Faculty of Forestry** as a part of Agricultural-Forestry Faculty was established in 1947.
- **The Ss. Cyril and Methodius University** in Skopje was founded in 1949 with the following faculties: Agricultural – Forestry; Natural Sciences and mathematic; Philosophy, Faculty of medicine

Co-funded by the  
Erasmus+ Programme  
of the European Union

load  
t the  
ies

- In 1975, with a decision of the National Assembly, the Faculty of Agriculture and Forestry was transformed and reorganized into two independent institutions: the [Faculty of Agriculture \(Food and agriculture faculty, today\)](#) and the Faculty of Forestry.
- In 1976, the Faculty of Forestry merged with the Forestry Institute in Skopje, and became its legal successor.
- In 2011, Department of wood industry separated from the Forestry faculty and the [Faculty of Design and Technology of Furniture and Interior](#) was established.
- In the following period the Faculty passes through more organizational reforms and developmental stages (1954, 1964, 1975, 1977, 1990, 1998, 2004 and 2011, 2013).

# Governance

- Dean office  
Dean; 2 vice-deans
- Faculty board
- Educational –scientific council
- Commissions

- The Faculty of Forestry in Skopje at the Ss. Cyril and Methodius University in Skopje includes the following **units**:
  - Forest Genetics and Tree Improvement
  - Botany and Dendrology
  - Seed Science and Forest Stands
  - Silviculture
  - Forest and Wood Protection
  - Game Management
  - Forest Techniques and Operations
  - Land and Water
  - Forestry Economics and Organization
  - Forest Management
  - Landscape Design

# Study Programs

- Forestry study program existed from the beginning and encompasses all topics related to forestry (and wood technology in the beginning).
- Following world trends related to forest education in the year 1999 started 2 study programs:
  - Forestry
  - Landscaping and Environment promotion
- In 2004, all undergraduate academic programs introduced ECTS (European Credit Transfer System).
- In 2006, the ECTS was introduced in the postgraduate academic programs.

## Current study programs - from 2018

4 + 1 + 3 years

- I cycle: Bachelor degree (BSc) – 240 ECTS
- II cycle: Master degree (MSc) – 60 ECTS
- III cycle: Doctoral degree (PhD) – 180 ECTS
  
- **BSC – Graduate engineer for**
  - - Forestry
  - - Landscape design
  - - Eco-engineering and eco-management
  
- **MSc - Master of**
  - - Forestry
  - - Landscaping and environment promotion
  
- **PhD – doctor** –new curricula is under construction

## Study programmes focus on:

- **Forestry** – seed/nursery production, plantation, silviculture, protection, harvesting, transport, inventory, forest management planning, game management, forest policy and economy
- **Landscape design** – decorative plant production and protection, garden/park designing, garden/park establishment; urban greenery maintenance
- **Eco-engineering and eco-management** – land and water environmental engineering and protection, natural resources management, protected area management, landscape and spatial planning, environmental analyses, environmental policy and economy

**SETOF**

**Soil Erosion and TOrrential Flood**  
*Prevention: Curriculum Development at the*  
*Universities of Western Balkan Countries*

# Current number of students

- Quotes depend on a Governmental bodies decision

- Current quotes for new academic 2017/18

- - FOR – 50 + 5 + 5
- - ECO - 30 + 5 + 5
- - LD - 40 +5 +5
- Total – 150 students (last year 30)

# Students

- Low interest for Forestry Faculty
- After graduation many migrate abroad
- A lot of student prefer private universities and other faculties (trend between young people)
- High quotes for faculties of humanitarian sciences (trend)
- Decrease in quality of enrolled students

## Connection with employment

- Mostly public sector
- Status: Involvement of politics in employment of inappropriate staff (agronomist, wood technology engineers, economist..) even on the most professional positions.
- Part of graduate students can not find employment in the sector and go foreign or work in other sector in very low positions (for primary or secondary school)

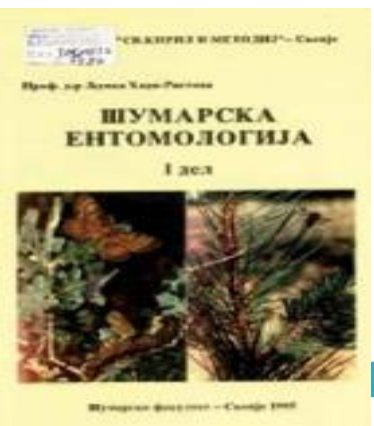

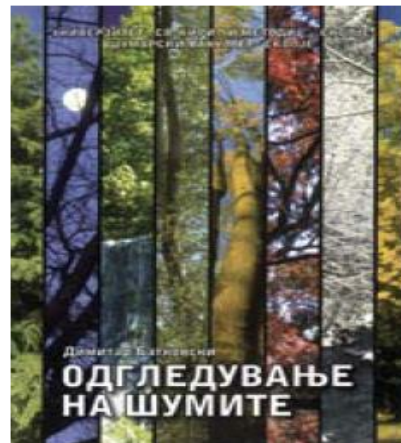

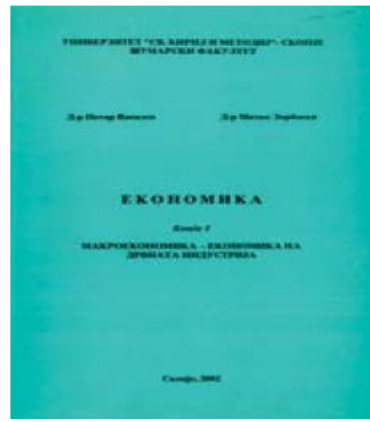

**HIGH COSTS for MAINTENANCE OF COLLECTIONS and LABORATORIES**

## Textbooks/manuals

- Only 10 textbooks after 2000. Prepared material (internal scripts) for almost all disciplines but due to lack of finances not printed.

- **Current teaching and research staff : 19**

16 full professors , 1 associate professor and 2 assistant professors,  
1 laboratory assistant

no teaching assistants

- Administrations staff: 5

- Other staff: 3

- Teaching and research staff in 1987 (**23** professors and **6** assistants = **29** plus 8 laboratory associate)

- Huge decrease of scientific-educational staff.

**Stagnancy instead of development**

**Soil Erosion and TOrrential Flood**  
*Prevention: Curriculum Development at the*  
*Universities of Western Balkan Countries*

Thank you for your attention!!!
