Soil Erosion and TOrrontial Flood  
Prevention: Curriculum Development at the  
Universities of Western Balkan Countries

# WP6: Exploitation

## University of Sarajevo

- For Erasmus+ exploitation is maximising the potential of the funded activities, so that the results are used beyond the lifetime of the project
- How the results can make a difference to the project, end-users, peers, policy makers, do they give new carrier oportunities?

Co-funded by the  
Erasmus+ Programme  
of the European Union

# WP6: Exploitation

## University of Sarajevo

### Exploitation mechanisms include:

- positive reputational effects for the participating institutions;
- increased awareness on a soil erosion and torrential flood control among policy makers (local and national level) et.
- increased financial support by other supporters or donors;
- increased influencing on practice.

Soil Erosion and TOrrential Flood  
Prevention: Curriculum Development at the  
Universities of Western Balkan Countries

# WP6: Exploitation University of Sarajevo

GOAL: Improvement of existing curricula and develop and implement new master curricula in the field of prevention from torrential floods, in compliance with the Bologna Declaration and EU good practices

Co-funded by the  
Erasmus+ Programme  
of the European Union

Co-funded by the  
Erasmus+ Programme  
of the European Union

## 6.3. Promotion for student enrollment

- The promotion of the new master program will be carried out prior to enrollment in the school year 2020/2021 and continuously during the master course.
- Time-line: from October until December 2020 and from July until December 2021
- TG: Teaching staff, students, trainees
- Dissemination level: Faculty, local, national, institution, region

# WP6: Exploitation

## University of Sarajevo

- Simultaneously with the education of employed engineers, the validation of the adopted curriculum will be carried out in practice.
- Local authorities deal mainly with the consequences of torrential floods through the rehabilitation of damaged facilities and the compensation of occurred material damage. However, it is necessary to educate local governments, so that they can adopt programs for the implementation of these works.

# WP6. Exploitation

## **Consortium partners involved and resources required to complete the work package**

- Trainings with engineers and local government (UNSA )
- Preparation for process of accreditation (UNSA )
- Promotion of the curricula (INSZASU)
- Promotion of the curricula (BOKU)
- Promotion of the curricula (UNSCM)
- Promotion of the curricula (Calabria)
- Promotion of the curricula (FRI-BAS)
